

## WASHINGTON COLLEGE OF LAW OPENS SOON

School Begins Its Ninety-first Year at New York Avenue Halla September 29.

Washington College of Law will begin its ninety-first year at the halla in New York Avenue, near Fourteenth street, September 29, at 7 p. m. The speaker will be Stanton J. Peelle, former chief justice of the United States Court of Claims.

Because, in 1826, three women determined to study law, this college enrolled last year 138 students, of which number 64 per cent were men and 36 per cent women.

The hours of classes, rates of tuition, and general methods of instruction are all carefully planned and regulated to meet the needs of those who must make the most of their opportunities while engaged in earning their own livelihood.

The courses of instruction combine the three approved methods of teaching law—the text-books, the lecture, and the case system. Students have also the benefit of individual quizzing.

The faculty is made up of professional teachers and active practicing lawyers.

Applicants for admission must be eighteen years of age or over, of good moral character, and have had the equivalent of a four years' high school course.

The academic year covers thirty-two weeks, commencing September 29, 1916, and ending May 20, 1917.

Regular class conferences are held on Mondays, Wednesdays, and Fridays of each week. The hours are either from 4:30 to 6:30 or from 8:30 to 10:30 p. m. Special quizzes, lectures, and sessions of the moot court are on Tuesdays, Thursdays, and Saturdays, as required.

The three years' course leading to the degree of Bachelor of Laws covers completely all subjects embraced in the bar examinations.

## TEMPLE SCHOOL HAS HAD RAPID GROWTH

Number of Teachers Increases From Ten to Fourteen.

The Temple School was established in 1901 with a faculty of three teachers; the school has now a thoroughly organized faculty of fourteen teachers, with an average attendance during the winter months of from 300 to 400 pupils.

The Temple School realizes that the greatest asset a parent can give a child is an education, which means development of the brain, development of capacity, and increased chance for success. There is little demand for unskilled labor in the business world today. The boy or girl must be trained to some particular line of work.

This is what the Temple School does; it specializes in shorthand, typewriting, spelling, English, bookkeeping, Spanish, and business office practice. It endeavors to find out just what the boy or girl can do. In many cases, we give a return to the public schools. If we do accept pupils from the graded schools, they must come especially recommended by teachers or be willing to undertake certain drills in English before beginning shorthand. Almost any one can learn the theory of shorthand, but it is the letters placed on an employer's desk, perfectly spelled and perfectly punctuated.

The boy or girl who enters Temple School is studied mentally, morally, and physically, and advised accordingly.

## Holy Cross Academy Has Many Advantages

One of the most widely known schools for young women in this section of the country is the Academy of the Holy Cross, at Dumbar-ton, D. C.

This boarding and day school is conducted by Sisters of the Holy Cross. Standard courses are given in primary, preparatory, and academic departments. Elective courses also are offered.

In voice culture, bookkeeping, Spanish, the piano, violin, harp, and other instruments, latest methods are employed. Drawing and painting, the art of expression, physical culture, and domestic science are included in the courses.

The academy is located on Dumbar-ton Heights, with a sweeping view of the Capital City. The equipment is modern and complete. The extensive grounds border on Rock Creek Park. Outdoor sports are provided, and frequent sightseeing excursions are conducted under proper chaperonage.

## CATHOLIC UNIVERSITY BROADENS ITS SCOPE

More Than 350 Students Are Expected to Be Enrolled When Classes Open.

With its faculty augmented by many new teachers recruited from the leading institutions of the country, where each in his respective line of endeavor has gained distinction, the Catholic University of America will open its fall term. Living accommodations for more than 350 students are in readiness at the university, while the institution is prepared to receive hundreds more in its different branches. Every room in the university has been thoroughly renovated since the close of school at the beginning of summer.

In addition to its notable opportunities for post-graduates, the university offers a variety of courses to the pupil just graduated from high school. Among these are the courses in engineering, comprising civil engineering, mechanical engineering, architecture, and the electrical engineering. For this work there is a well-equipped engineering laboratory. There are thorough courses in mathematics, astronomy, physics, mechanics, and chemistry. All are modern and complete. The physical laboratory and library and the chemical laboratory, library, and museum offer exceptional advantages for practical work and for experimentation.

The astronomical observatory also is equipped with instruments which give the student every opportunity for actual observation. There is a three-year course in common law, leading to the degree of LL. B., while degrees of LL. M. and J. D. may be had in the graduate department of common law. Law students may follow such courses in other departments as philosophy, letters, sociology, political economy, history, or science.

The record of the university is the Right Rev. Thomas J. Shahan, and under him is assembled the teaching staff, comprising some of the ablest authorities in their various lines in the country.

## HOUSE CLEANS UP LEGISLATIVE SLATE

Passage of Webb Bill Clears Way for Adjournment.

The House practically cleaned up its legislative slate, so far as the present session is concerned, when it passed yesterday the Webb bill permitting American exporters to form selling agencies to promote the foreign trade of the United States. The vote was 200 to 34.

The bill provides that, notwithstanding the anti-trust laws, it shall be legal for American exporters to combine and form agencies for the marketing of American products abroad.

Chairman Webb, of the Judiciary Committee, said the measure was particularly in the interest of the small business man who has not the facilities to maintain unaided agencies for the disposal of his goods in foreign countries.

Mr. Webb argued that foreign countries, notably Germany, encourage the formation of such selling agencies and that American exporters will be at a decided disadvantage following the European war if they cannot fight for trade with similar weapons.

"Few, if any, foreign countries compel their exporters to observe business standards prescribed by our anti-trust law," said Mr. Webb. "Then why should we require our exporters to observe a higher and stricter standard of conduct than their foreign competitors are required to observe? By this bill we permit our exporters to meet their foreign rivals on equal terms."

## Dog Show Is Held at Garfield Playgrounds

For some time there has been dispute between dog owners of the Garfield Park playground neighborhood as to which dog is the best. It was decided to settle the point once and for all by a dog show was held at the playground. About 300 people assembled to see it. Miss Maude Parker, principal of the playground, had charge of the affair, and Miss Dorothy Martoch, Mr. Thomas Kinney, and Mr. Daniel Breen were judges.

After an exhibition by trick dogs, the Lench show was held, resulting in the following awards: Blue ribbon to Speed, St. Bernard puppy owned by Rodney Elliott; red ribbon to Junior, Estelle Hayden's French poodle, and white ribbon to Jack, a collie owned by Charles Matly.

## Georgetown Plans Law Course For Laymen

The forty-sixth session of classes at Georgetown Law School will open on Monday, October 1, 1916, in the Georgetown Law School building, Sixth and E streets northwest, at 8:30 o'clock.

The president of the university, the Rev. Alphonse J. Donlon, S. J., will preside; George E. Hamilton, LL. D., dean of the law faculty, will introduce the speakers. The session will take place in the auditorium of the law school building, which has a seating capacity of 825.

The law faculty of the university and students will be present. From present indications the scholastic year 1916-1917 will be a very successful one for the law department. For the past five years Georgetown Law School has had an enrollment of 1,000 men; its graduates are well known both in judicial and professional life, and in the legislative and executive branches of the Government.

A new course, to be conducted by Hon. Henry S. Butell, LL. D., is announced. This course is entitled "American Legal Institutions," and it is believed, is not to be found in the curriculum of any other law school. It is intended primarily for those who desire to acquire a broad basis of general legal culture, and who would not be interested in the more technical courses in pleading, practice, and procedure. This course will appeal particularly to those in the diplomatic and consular service, and to those who work closely with the administration and interpretation of acts of Congress, and who are required to have the facilities to maintain unaided agencies for the disposal of their goods in foreign countries.

The record of the university is the Right Rev. Thomas J. Shahan, and under him is assembled the teaching staff, comprising some of the ablest authorities in their various lines in the country.

## HOWARD UNIVERSITY OPEN SEPTEMBER 16

Howard University opens for registration September 16 and for recitation September 20. It expects the largest attendance in its history. The increased applications for entrance to date are especially in the college of arts and sciences, teachers' college, domestic science, domestic arts, and engineering courses.

The semi-centennial of the founding of the university is to be celebrated March 2-4, 1917. There is an indication that many of the over 10,000 former students, over 3,000 of whom are graduates of the several departments of the university, will be present, and that the celebration will be the greatest event in the university's history. Howard was established to give advanced and professional education to all without distinction of race, especially to the colored people.

From small beginnings it has grown during the half century to be the largest institution of its kind in the country and to the position of a truly national institution. Last year there were 1,441 students in its various departments. The medical college, pharmaceutical college, dental college, schools of law and theology, college of arts and sciences, teachers' college, school of manual arts and applied sciences, conservatory of music, library school, commercial college, and academy. They came from thirty-seven States, the District of Columbia, and seven other countries.

The graduates of Howard are among the leaders of the colored race throughout the nation and in many other parts of the world. They have the highest standing as ministers, physicians, pharmacists, dentists, teachers, lawyers, business men, and home makers. Only a few have been graduated from the recently added engineering courses. One of them is in the Government employ in Porto Rico and another has an important position in laying out a great tract of land in the Canal Zone to be occupied by colored people, who come largely from the West Indies.

The exhibits at the close of last year of the work of the students in domestic arts and domestic science made a very creditable showing and gave evidence of the principles by which acts of Congress are to be interpreted.

Not often in the history of the country have the duties of citizenship been of more importance to the nation. With this thought in mind, the faculty of Georgetown Law School have established this course, which gives a training in the fundamentals of citizenship in the belief that it will prove of practical public service.

The charge for this course will be practically nominal—\$20 for the entire year, payable in three installments of \$10 each. The sessions will be held three times each week, commencing at 8:30 o'clock in the Georgetown Law School building, Sixth and E streets northwest.

The faculty of Georgetown Law School consists of fifty-four members; a combination of the text-book and case-book methods of instruction is followed, with the idea in view, first, of grounding the student thoroughly in the principles of each subject, and next, of developing a fuller knowledge of principles by studying their application in concrete cases. For the purpose of systematic recitations, each class is subdivided into small sections.

Intended interest is being taken in debating at Georgetown Law School, and several intercollegiate debates are in preparation. The faculty offers \$25 in prize money to the winner of each of the four preliminary public debates, and \$50 in gold to the winner of the final public debate, in which the members of the preliminary debates contest.

The law library of the school has been largely increased by the gift of the private library of a former member of the faculty, F. J. Nott, M. C., who for many years was a professor of patent law.

Old-Established School Opens Many New Opportunities to Student.

The Emerson Institute, established in 1821, and one of the oldest institutions of learning in this city will begin its next term in a short while.

New buildings, new lighting and heat plants, increased library and laboratory facilities, will insure the student comfort and offer opportunities in a manner adequate and thoroughly modern.

A feature of the Emerson Institute is the thorough and efficient courses it offers for men who wish to prepare for the Naval Academy, West Point, and for commissions in the Coast Guard. The Emerson has engaged a faculty of men familiar with the subjects upon which the entrance examinations of the two academies lay most stress.

The student who has been "preparing" at Emerson in sure of standing an exceptionally good chance for passing creditably the difficult examinations for entrance into either the army or navy academies.

Other courses offered at Emerson prepare men for all colleges and universities, the diplomatic and consular service, business and professions in Latin America, and for the position of assistant examiner in the United States Patent Office.

## ST. ALBANS SCHOOL OFFERS COUNTRY LIFE

Begins Eighth Session This Fall With Plans for an Afternoon Session.

St. Albans, the National Cathedral School for Boys, begins its eighth year this fall. This school is becoming more and more recognized as country day school for Washington boys.

During the coming year the management will put into effect plans for an afternoon session consisting of a supervised recreation period followed by a study hour.

By this arrangement boys living in town will return home in time for dinner, having prepared part of their work for the following day.

Practically all of the fifteen graduates of last June are entering Northern and Western universities. Carter, Maxam, and Wallace, who did so much to advance the school's name in athletics, will go to Pennsylvania. Brewster, the champion sprinter, has chosen Lehigh; Castle, Hauser, and Potter, Dartmouth; Boyd, will enter Williams. Kelley, Lafayette; Livermore, Michigan; Greene, Massachusetts Institute of Technology; Nelson, Georgetown University; Worth Daniels, the University of North Carolina.

Many changes have been made in the teaching staff. The new men are college men of experience. The outlook for a successful year is particularly good.

## 48th Year. Opens Oct. 2, 6:30 P. M.

## NATIONAL UNIVERSITY SCHOOL OF LAW

(Incorporated Under Special Act of Congress)

An evening school of law conducted by practicing lawyers. Standard courses, leading to degrees of Master and Bachelor of Laws.

Sessions and method of instruction (combination of text-books and leading cases), best adapted for students with limited time for study.

FACULTY. CHARLES FRANCIS CARUSI, Esq., LL. M. (Of the Washington, D. C. Bar.) Dean of the Law Faculty and Professor of the Law of Real Property and of Contracts.
